

**Mona Arnold, Principal Scientist**

Mrs. Arnold (Tech. Lic., MBA) is currently working as a Spearhead Programme Manager (Green Solutions for Water and Waste) and Principal Scientist at VTT. She is currently coordinating and developing VTT's research in eco-innovation and resource efficiency. Mrs Arnold has over 20 years of professional experience in research and development relating to eco-innovation and environmental R&D. She is especially experienced in biotechnological solutions for water and waste treatment, sludge management, GHG emission management and waste to energy issues.
