

CV Jukka Salmela, Helsinki Region Environmental Services Authority (HSY)

Mr. Salmela is the Operation Manager for Waste Treatment activities within Helsinki Region Environmental Services Authority (HSY). His Unit operates the Ämmässuo Waste Treatment Centre, which treats MSW of more than 1 million people. He obtained a MSc. in Environmental Technology from De Montfort University, UK in 2003 and is currently preparing his PhD. at Lappeenranta University of Technology.

Salmela has more than 10 years' experience in Waste Management both from Public and Private sector. Before his current position, he worked as a Project Manager for YTV (former HSY) where he's responsibilities included Renewable Energy planning / construction and R&D work. He holds special interest and expertise on Landfill Gas Recovery and Utilization Technologies and Material and Energy efficiency within Waste Management.
