

EUBIONET III workshop in Finland

It is our pleasure to invite you to participate in the EUBIONET III workshop to be held in Espoo, Finland, on 15 April, 2011. EUBIONET III project is supported by Intelligent Energy Programme.

Bioenergy and forest industry

Friday, 15 April 2011 from 9 to 16.30
VTT, Vuorimiehentie 5, Espoo, Finland

Forest industry is biggest provider and user of solid biofuels. About 55% of the fuels used in pulp & paper mills in Europe are renewable. Forest industry is taking actively part in developing new biofuels for transport sector based on woody biomass resources. Wood pellets are also one option for solid biofuels from forest industry. EUBIONET III event will concentrate on the opportunities, which biomass can bring to forest industry. The workshop will include the following main topics: new biomass products from forest industry, production of wood pellets and torrefied biomass.

Event is organised in co-operation with Finnish Forest Industries Federation.

The language of the workshop is English. The workshop is free of charge. Maximum number of participants is 100. Videoconference will be organised to Jyväskylä and other VTT's facilities in Otaniemi, Finland.

Additional information

Eija Alakangas, VTT, coordinator of
EUBIONET III project
Tel. +358 400 542 454
E-mail: eija.alakangas@vtt.fi
www.eubionet.net

Jouni Valtanen, Finnish Forest Industry
Federation
Tel. +358 9 132 6638
E-mail: jouni.valtanen@forestindustries.fi
www.forestindustries.fi

Registrations before 7 April through internet:

<https://www.webropol.com/P.aspx?id=527135&cid=13026549>

VTT's location: See attached map in which VTT's auditorium is marked by number 14.

Accommodation

Accommodation is organised in Radisson Blu Hotel, Otaranta 2, 02150 Espoo. Single room is 90€/night and double room 110 €/night. The rates include breakfast, VAT and guest sauna. Reservations: reservations.finland@RadissonBlu.com. Please quote the allotment code EUBIONET when making a booking. The allotment is in force until 30 March 2011.

Programme - Bioenergy and forest industry

Friday, 15 April 2011

VTT, Vuorimiehentie 5, Espoo, Finland

<i>Biomass availability for energy and raw material – Chair Timo Heikka, StoraEnso</i>	
8.00	Registration
9:00	Opening of the workshop <i>Kai Sipilä, VTT</i>
	Biomass and bioenergy solutions for pulp & paper industry <i>Ulrich Leberle, CEPI, Belgium</i>
	Real potential for changes in growth and use of EU forest <i>Udo Mantau, University of Hamburg, Germany</i>
	EUBIONET III - Agroindustry biomass residues for pellet raw material <i>Jørgen Hinge, Danish Technical Institute, Denmark</i>
10.30	Coffee break
<i>Biomass and bioenergy solutions for forest industry Chair Stefan Sundman, Finnish Forest Industries Federation</i>	
10.50	Bioenergy solutions for forest industry <i>Stefan Sundman, Finnish Forest Industries Federation, Finland</i>
	Sustainability of forest biomass <i>Pekka Kauppi, University of Helsinki</i>
	Pellet production and trade in Russia – role of forest industry <i>Olga Rakitova, Bioenergy International, Russia</i>
12.00	Lunch break
<i>Pellets and torrefied biomass – Chair Eija Alakangas, VTT/EUBIONET III</i>	
13.00	Stora Enso approach to pellet business <i>Matti Mikkola, StoraEnso, Finland</i>
	Torrefaction of biomass <i>Jaap Kiel, ECN, the Netherlands</i>
	Metso concept for torrefaction <i>Peter Björklund, Metso Power AB, Sweden</i>
15.00	Coffee break
<i>Future options for bioenergy in forest industry – panel discussion</i>	
15.20	Darkness at noon? Scenarios for bioenergy <i>Petri Vasara, Pöyry, Finland</i>
	Panel discussion for bioenergy and forest industry <i>Members speakers</i>
16.30	Conclusions of the workshop

See latest version of the programme on the EUBIONET III web at www.eubionet.net
